# High Confidence – Signal Brief

This volume adds additional High Confidence accounts from your Supabase list that fit your industrial, logistics, construction, and food profile and had not been highlighted in the first brief.

## 1) ACT Pipe & Supply Inc. – Houston + Statewide TX (actpipe.com)

Wholesale / Waterworks Distribution

### CRM SNAPSHOT

`350 employees`, Houston HQ at 6950 W Sam Houston Pkwy N; multiple CFO/Controller contacts.

### EXTERNAL SIGNAL

ACT appears as a primary waterworks distributor with extensive Texas footprint – Dallas, Fort Worth, Houston, Mission, Temple, Bryan, Beaumont, and more – on McWane Ductile and similar distributor lists. They are also listed as a BuyBoard vendor for water/wastewater pumps, motors, and water treatment chemicals through 2028–2029.

### WHY ENERGY MATTERS

Multiple large warehouses and yards across Texas metro and secondary markets; heavy use of lighting, yard equipment, and fabrication/assembly spaces. Their locations are close to high-load infrastructure projects (TxDOT/municipal) where operations run extended hours.

> **CALL ANGLE**
>
> *"You've built a statewide waterworks distribution network with multiple Texas warehouses; let's benchmark each site's ERCOT contract and see where we can standardize pricing and terms, especially as you ramp work tied to infrastructure and municipal projects."*

## 2) Action Gypsum Supply LP – Houston + Dallas + Multi-state (actiongypsum.com)

Building Materials

### CRM SNAPSHOT

`350 employees`, Houston address 9635 W Little York Rd; CFO + Controller in High Confidence list.

### EXTERNAL SIGNAL

Action Gypsum operates more than 30 locations across TX, AZ, CA, CO, NV, and OK, including major sites in South Houston (4452 Genoa Red Bluff) and Dallas (1706 N I-35E, Carrollton), with extended hours serving large construction contractors.

### WHY ENERGY MATTERS

Large distribution centers with high-bay lighting, loading equipment, indoor/outdoor storage, and frequent truck traffic; regional building cycles can drive extended shifts and higher kWh.

> **CALL ANGLE**
>
> *"You're running a multi-state materials network with long operating hours; we can build a Texas-specific energy strategy that protects margins on every gypsum load you ship in ERCOT territory."*

## 3) Action Meat Distributors – Houston, TX (actionmeat.com)

Wholesale Meat Distribution / Cold Chain

### CRM SNAPSHOT

`30 employees` and `$300M+ revenue` in your data – strong revenue-to-headcount ratio.

### EXTERNAL SIGNAL

Action Meat runs a large wholesale distribution operation from 1920 S Starpoint Dr, Houston, with a fleet of trucks delivering meat, poultry, cheese, and seafood across all major Texas markets.

### WHY ENERGY MATTERS

Significant freezer/cooler capacity and 24/7 cold-chain operations; concentrated load at the Houston facility with refrigeration, processing, and truck loading bays.

> **CALL ANGLE**
>
> *"Your cold storage and distribution hub at S Starpoint is exactly the kind of 24/7 load ERCOT punishes in summer; I can help you structure a contract that protects your margins as volumes grow across Texas."*

## 4) A3 Glass Fabricator – Houston, TX (a3glassfabricator.com)

Glass Fabrication

### CRM SNAPSHOT

`30 employees`, Houston address 13021 Windfern Rd; CFO contact in list.

### EXTERNAL SIGNAL

A3 positions itself as a full-service glass fabrication company serving commercial and residential projects across Houston; online presence and reviews emphasize steady contractor volume.

### WHY ENERGY MATTERS

Fabrication facilities rely on cutting, tempering, and finishing equipment plus warehouse lighting and dust collection systems; high kWh per sq ft, especially during peak construction season.

> **CALL ANGLE**
>
> *"Your fabrication shop's energy profile tracks the Houston construction cycle; we can lock in a contract that smooths those peaks so you're not exposed to seasonal ERCOT volatility."*

## 5) ABF Packing – Dublin, TX (abfpacking.com)

Beef Processing & Packing

### CRM SNAPSHOT

`30 employees`, rural address south of Dublin; owner contact in list.

### EXTERNAL SIGNAL

ABF is a vertically integrated beef processor (The Udder Packers) with on-site slaughter, packing, and further processing; available case studies emphasize consistent throughput for private-label and branded beef.

### WHY ENERGY MATTERS

Slaughter and packing operations are extremely energy intensive – refrigeration, washdown, motors, pumps, and compressed air – often running long hours or multiple shifts.

> **CALL ANGLE**
>
> *"Beef processing is one of the highest kWh-per-pound industries in ERCOT; we can align your contract with your kill/fabrication schedules so your true load shape is priced correctly."*

## 6) 1X Plastics – Fort Worth, TX (1xplastics.com)

Plastics / Industrial Equipment

### CRM SNAPSHOT

`30 employees`, Fort Worth address 7333 Jack Newell Blvd N; owner contact in list.

### EXTERNAL SIGNAL

1X Plastics manufactures or refurbishes equipment for plastics/converting applications; leadership bios highlight decades of experience and a growing service business for industrial clients.

### WHY ENERGY MATTERS

Shop environment with CNC machines, extruders, or similar heavy equipment; good baseload and relatively stable usage month to month.

> **CALL ANGLE**
>
> *"Your Fort Worth shop looks like a classic industrial ERCOT customer – we can likely improve your contract terms just by matching pricing to your actual run hours and load factor."*

## 7) Portfolio Angle: Cold Chain + Fabrication

Combined, these three accounts (glass fabrication + beef packing + meat distribution) give you a powerful 'cold chain + fabrication' story in Texas.

> PITCH THEME
>
> *"We work with energy-intensive manufacturing and food companies across ERCOT that look just like your operations – from cold storage to fabrication shops – and we've helped them navigate both price spikes and contract pitfalls unique to Texas."*

## 8) Construction Materials Cluster

ACT Pipe & Supply and Action Gypsum are anchor distributors in waterworks and building materials with multiple Texas locations.

> PITCH THEME
>
> *"For construction materials groups with yards and DCs in several Texas metros, we typically find hidden savings by standardizing term lengths, aligning renewal dates, and fixing known peak periods before the market moves."*

SUGGESTED NEXT STEPS

**First calls from this volume:** ACT Pipe & Supply, Action Gypsum Supply, Action Meat Distributors.
**Secondary calls:** A3 Glass Fabricator, ABF Packing, 1X Plastics.

**Strategy:** Use vertical-specific talk tracks: 'cold chain and protein', 'construction materials distributors', 'fabrication and industrial shops' rather than a generic broker pitch.
