36-MONTH FULLY FIXED SUPPLY

Memory, here is a cleaner fixed-rate path for Baker Nissan.

Memory, here is a straight comparison for Baker Nissan. The 19630 Northwest Fwy site stays separate from the other three meters, and the Engie option locks in a fully fixed rate with a clean exit if the facility is no longer occupied.

ESTIMATED ACCOUNT SAVINGS

$6,645.24

At 1,273,034 kWh a year and your current rate of 0.07810 / kWh, the savings come to $6,645.24 a year and $19,935.71 over 36 months.

BAKER NISSAN, HOUSTON

A custom summary for Baker Nissan.

CURRENT: FREEPOINT ENERGY SOLUTIONS LLC

OFFER: ENGIE

RATE: 0.07288 / KWH

TERM: 36 MONTHS

EXIT: $0 IF VACATED

CURRENT ANNUAL COST	ENGIE ANNUAL COST	ANNUAL SAVINGS	36-MONTH SAVINGS

At your current rate.	Fully fixed at 0.07288 / kWh.	About $553.77 per month.	Across 1,273,034 kWh a year.

ACCOUNT SNAPSHOT

The key pieces are all here in plain English.

This is the Baker Nissan summary for Memory Stewart.

ACCOUNT	CONTACT	CURRENT SUPPLIER	CURRENT RATE
Baker Nissan Automotive dealership in Houston.	**Memory Stewart** Chief Financial Officer	**Freepoint Energy Solutions LLC** Current account supplier.	**0.07810 / kWh** Current account rate.

ANNUAL USAGE	CONTRACT END	SERVICE SITES	OFFER
1,273,034 kWh Used for the savings math.	**2027-06-04** Account date on file.	**4** One main site plus three others.	**Engie** 36-month fixed / 0.07288 / kWh

Call note that matters

Memory said the key concern is not just price. It is getting a lower rate without getting trapped in a bad contract. That is why the proposal keeps the structure plain: no cancellation fee if the facility is no longer occupied, and a fixed rate that can be reserved ahead of the next renewal window.

DECISION LENS

Lower rate, cleaner exit, no drama.

Lewis Patterson | Nodal Point

TWO-CONTRACT STRUCTURE

One contract for the main site, one for the remaining three meters.

The biggest site stays separate so the proposal is easy to read and easy to sign.

ABOUT 71% OF THE LOAD

Contract 1: 19630 NORTHWEST FWY

This is the largest site. It carries the bulk of the electricity usage, so it gets its own contract and its own savings line.

ESTIMATED ANNUAL KWH	CURRENT ANNUAL COST
899,904	**$70,282.50**
ENGIE ANNUAL COST	ANNUAL SAVINGS
$65,585.00	**$4,697.50**

COVERED LOCATIONS

19630 NORTHWEST FWY, HOUSTON, TX 77065-4074

ABOUT 29% OF THE LOAD

Contract 2: the other three sites

This bundles the remaining three locations into one clean contract so the campus still has a simple structure.

ESTIMATED ANNUAL KWH	CURRENT ANNUAL COST
373,130	**$29,141.45**
ENGIE ANNUAL COST	ANNUAL SAVINGS
$27,193.71	**$1,947.74**

COVERED LOCATIONS

10626 GLENORA DR, HOUSTON, TX 77065-0000

19630 NORTHWEST FWY A, HOUSTON, TX 77065-4074

12703 CROSSROADS PARK DR, HOUSTON, TX 77065-3412

TOTAL ANNUAL SAVINGS
$6,645.24
Current usage x rate difference.

36-MONTH SAVINGS
$19,935.71
Three years at the fixed Engie rate.

RATE DIFFERENCE
0.00522 / kWh
0.07810 - 0.07288

PLAIN-ENGLISH TAKEAWAY

Baker Nissan is already on Freepoint. This proposal gives Memory a lower fixed rate with a cleaner exit path if a site is vacated. The main showroom/service site stays separate from the other three locations, which makes the proposal easier to read and easier to sign.

WHAT CHANGED

Contract 1 covers 899,904 kWh. Contract 2 covers the remaining 373,130 kWh.
