Thermo Plastics Corporation

Glenn and Tammy, here is the cleanest 24-month ENGIE option I can put in front of you. It is built to be easy to compare: one rate, one term, $0 exit if you no longer occupy the facility, and a lower-rate path if the market drops.

GLENN WEATHERBY | PRESIDENT

TAMMY RAMIREZ | OFFICE MANAGER

INTERNAL REVIEW ONLY

24-MONTH ENGIE RATE

0.06275

Keep this rate private so any comparison stays apples-to-apples. Compare the same term, the same facility, and the same exit language.

TERM

24 months

SUPPLIER

ENGIE

EXIT FEE

$0 if Thermo Plastics no longer occupies the facility

FLEX OPTION

Blend & extend one more year if market rates drop

WHY THIS WORKS

- Simple for your team to review internally because the structure is easy to compare.
- If the facility changes hands or you leave the building, there is no termination fee.
- If the market softens, you have a clean path to a lower rate with a one-year extension.

ON FILE

FACILITY

4101 Hahn Blvd, Fort Worth, TX 76117

ANNUAL USAGE

Approximately 461,700 kWh

PRIMARY CONTACTS

Glenn Weatherby and Tammy Ramirez

This is confidential pricing for internal review only. Please keep it within the decision team so any comparison stays fair and apples-to-apples.
