NODAL POINT

Referral Partnership Overview

Prime Development Partners x Nodal Point. A simple 50/50 referral structure for new opportunities on membership-based, multi-location brands.

PREPARED FOR

Nate
Prime Development Partners

TARGET MILLS	REFERRAL SPLIT	PAYOUT BASIS
10 mills	50 / 50	Annual kWh
Working target for the referral deal.	For every new contract Prime brings in.	Annual usage x mills, then split evenly.

WHY THIS FITS

- Prime Development Partners already does commercial construction and franchise buildouts.
- Glo Tanning is clearly a growth brand, with 358 public locations and a franchising section.
- Earth Nail Spa runs a membership model and shows waitlist and franchise language on its public site.

HOW THE REFERRAL WORKS

1. Prime brings the opportunity.
2. Nodal Point handles the energy side and structures the contract.
3. If the contract closes, the referral payout is split 50/50.
4. This applies only to new contracts introduced by Prime.

SIMPLE TERMS

- Target pricing is usually 10 mills.
- If the final deal lands above or below 10 mills, the payout follows the actual closed terms.
- Existing deals already in motion stay out of the split.

BRAND CONTEXT

Prime Development Partners

Commercial real estate construction, tenant improvements, MEP plans, and franchise buildouts.

Glo Tanning

National scale, 358 locations, franchising, and membership pricing that starts at $19.95 per month.

Earth Nail Spa

Membership-driven concept with public pricing at $129 per month and $199 per month, plus a waitlist.

PAYOUT MATH

RULE	1 mill = $0.001, so 10 mills = $0.01 per kWh.
FORMULA	Annual payout = annual kWh x mills / 1,000
EXAMPLE	**1,000,000 kWh x 10 mills = $10,000** annual payout.
SPLIT	**$5,000 / $5,000** on a 50/50 referral split.

Note: This is a working referral summary, not a legal contract.

Public context checked from Prime Development Partners, Glo Tanning, and Earth Nail Spa pages.
