NODAL POINT CAREERS

Energy Sales Representative

Remote in Texas. Full-time or part-time. Commission-based opportunity. We hire people who can open doors, ask better questions, and turn energy data into clear action.

TEXAS ENERGY MARKET · COMMERCIAL ACCOUNTS · CONSULTATIVE SELLING · INTERNAL RECRUITING · CONFIDENTIAL

INCOME PATH

$40K - $250K+

Base + commissions while you ramp, then residuals as your book grows. There is no hard ceiling for top performers.

CORE MISSION

Expose hidden cost leakage

We reverse-engineer supplier tariffs and contract structures so clients see where money is leaking and what to do next.

WHAT WE DO

FORENSIC ENERGY INTELLIGENCE

Nodal Point is a forensic energy intelligence platform. We reverse-engineer supplier tariffs to expose hidden cost leakage in commercial energy contracts, then turn that analysis into business decisions that CFOs and operators can trust.

> This is not commodity pitching. This is diagnostic selling backed by real data, real contract structure, and a clear financial story.

THE ROLE

HOW YOU SPEND YOUR DAY

01 Sales Outreach

Cold outreach to CFOs, operations directors, and facility managers across Texas. You build pipeline from zero and keep moving until you get the meeting.

02 Contract Negotiation

Present forensic findings with dollar impact, structure contracts around real load behavior, and surface demand-ratchet or pass-through issues before they become surprises.

03 Account Management

Manage active accounts through the CRM intelligence layer, monitor signals, and turn renewals into repeat revenue instead of starting over every year.

WHO THRIVES HERE

THE KIND OF AGENT WE WANT

Hunter

You do not wait for leads. You know how to create momentum and keep a pipeline alive.

Consultative

You diagnose first. You ask sharp questions instead of pushing a pitch too early.

Data-fluent

You can talk about demand charges, tariff structures, and load behavior without freezing up.

Resilient

You do not take rejection personally. You treat it like signal and adjust fast.

INCOME POTENTIAL

CLEAR UPSIDE, NOT VAGUE PROMISES

YEAR 1 · RAMP

$40K - $60K

First six months: base plus commissions while you build pipeline and learn the market.

YEAR 2+ · FULL PIPELINE

$60K - $100K

Residuals stack as your book becomes active and contracts begin renewing on their own cycle.

YEAR 3+ · UNCAPPED

$100K - $250K+

No ceiling. Top performers own the market by owning the relationships and the data behind them.

YOUR TOOLS

THE STACK BEHIND THE WORK

Nodal Point CRM — CRM

Forensic audit, contact intel, and account visibility in one place.

The Foundry AI — AI

A variable-driven outreach engine for smarter follow-up and messaging.

ERCOT Telemetry — LIVE

Real-time grid and price context that sharpens the sales conversation.

Protocol Builder — FLOW

Visual flowcharts for email sequences and outreach structure.

If you want a clear process, real upside, and a market that rewards discipline, this is the seat.

Stop competing on price. Start owning the market. Apply at `nodalpoint.io/careers` or send questions to `signal@nodalpoint.io`.
